

badgy 200

Evolis presents the **Badgy200** solution, designed to help you print professional-quality color badges with perfect ease.

A complete solution which is economical and easy to use, Badgy200 fulfills all your needs for graphic personalization and instant card production, as single cards or in small batches.

THE AFFORDABLE CARD PRINTING SOLUTION

Badgy200 is ideal for producing personalized cards:

- Staff ID badges
- School ID cards
- Membership cards
- Loyalty cards
- Event badges
- Visitor badges

ECO-DESIGN

As part of our eco-design system aimed at reducing the environmental footprint of our products, Evolis:

- ▶ **uses recycled materials** in the manufacture of our printers and consumables whenever possible,
- ▶ designs compact and lightweight printers to **reduce CO₂ emissions** from transportation and packaging,
- ▶ **reduces the power consumption** of its printers through a very economical hibernation mode.

A COMPLETE SOLUTION

Badgy provides you with a **turnkey solution**, for PC or Mac, consisting of a plastic card printer, the Evolis Badge Studio® card personalization software, and a pack of consumables (color ribbon and blank plastic cards) for 100 prints.

In addition, a **free card template library is available at www.badgy.com**, where you can personalize the template of your choice, adding text, logos, photos, barcodes, and more.

PRINTING ON DEMAND

Badgy200 allows you to print your own cards **instantly and completely independently**. Print your badges as you need them – as single cards or in small batches.

SAVING TIME

Badgy200 has an output of **95 color cards per hour**. You can also import data from a database, adding information to your card designs in a single click, and launching a print run of your badges with one command, including variable data.

A STRONGER BRAND IMAGE

The Badgy200 printer generates personalized plastic cards, with **professional-quality, edge-to-edge** printing, highlighting your organization's brand image.

EASY TO USE

The Badgy200 is installed and used like a **standard office printer**. You load the cards in the feeder and retrieve them from the output hopper, both located on the front of the printer.

With the Badgy Premium Suite® software, you can **easily control** the printer from your computer, by receiving notifications.

The Badgy print ribbons are **easy to install and automatically recognized**.

COMPACT

The Badgy200 printer is smaller than a letter sized sheet of paper, which means it can **fit easily into any workspace**. Thanks to its light weight (just 1.7 kg) and its carrying bag (sold separately), the Badgy can easily be transported.

badgy 200

A COMPLETE SOLUTION

- Online card template library

- Evolis Badge Studio® card personalization software + (including import from databases)

- Ribbon in a cartridge for easier handling

- LED control panel
- 38 seconds per color card
- 25-card feeder
- 25-card output hopper
- USB port

- Consumables pack for 100 prints (color ribbon and cards)

GENERAL FEATURES

- Single-sided printing module
- Edge-to-edge printing
- Color sublimation and monochrome thermal transfer
- Printing resolution: 260 x 300 dpi
- 2 million colors
- 16 MB RAM

PRINTING PERFORMANCES

- Color (YMCKO): 38 s per card (95 cards/hour)
- Monochrome: 11 s per card (325 cards/hour)

INTERFACES

- USB 2.0 (1.1 and 3.0 compatible)

SAFETY

- Space for Kensington® security lock

DISPLAY

- LEDs
- Graphic printer notifications*: cleaning alerts, end of ribbon alert, ribbon due to end, etc.

* Depends on your version of Windows®
